Summary

This booklet describes the main changes made to the FRS questionnaire from April 2021.

While many of these changes have been made to meet the information needs of policy makers, for example, to reflect changes in benefit receipt, amendments have also been made in response to interviewer feedback which was given via questions answered in the Admin block (and reported mid-year to DWP in the Field Report).

With the aim of reducing interview length, questions have been removed from the survey. Questions have been removed which are no longer of value to the survey or where information can be found from a different source, rather than asking respondents to provide the details. Whilst FRS is conducted by telephone interviewing, questions on assets will be asked of a reduced number of people and debts questions will only be asked at all once face-to-face interviewing continues.

Sample Information

Country-specific questionnaire version

To ensure that the correct version of the questionnaire is administered in England, Scotland and Wales, a change has been made to the way we identify the country for the purposes of routing in the questionnaire. DWP have identified some cases which were administered using the wrong questionnaire version, in particular, where addresses were 'on the borders' (e.g. addresses on the English side of the border have been issued the Scottish version of the question, and vice versa, and have therefore not been asked certain key country-specific questions).

To resolve this, country will now be identified by a different sample *CountryCode* variable. The sample of addresses is being issued in the usual way so you will still occasionally find a mix of bordering countries in your allocation of addresses. The only difference to note is that the country relating to each address will be confirmed and routed accordingly in the questionnaire. The country identification will all happen behind the scenes based on the sample information so there will be nothing for you to do. NatCen interviewers should note the version of the questionnaire that will be used as shown at the *First* screen where the *Sample Info* is usually displayed.

Recording interview mode

It is hoped that face-to-face interviewing can resume at some point during the 2021/22 survey year. While the impact of COVID-19 continues to affect how FRS interviews are conducted and where throughout the survey year there are likely to be telephone and face-to face interviews, it is important that the type of interview conducted can be identified. A question *FTFTEL* has been added to identify how the interview was conducted ('Face to Face' or 'By telephone') which will be important for routing in the questionnaire where questions may be either not asked (i.e. taken off route) or asked differently according to how the interview is being conducted (e.g. Assets and Debts questions). This question appears immediately before the Household Grid.

IMPORTANT NOTE: It is essential that the interview is conducted **entirely in one mode only** so all individuals must be interviewed either all face-to-face or all interviewed by telephone. Interviews MUST NOT be a mixture of face-to-face and telephone interview even if this might better achieve a fully completed interview.

If you need to call a respondent to collect the information they were unable to provide during the interview DO NOT change the answer at *FTFTEL*. Calling back for additional information is not seen as a change in interview mode for our purposes.

Legal guardian for 16-19 year olds

As all adults, aged 16 and over, are interviewed in person on FRS it is really important that every person in the household is correctly identified as either an adult or child. The relationship between each member of the household also needs to be accurately recorded. It is only with this information that the Benefit Units are assigned correctly which is essential for the smooth running of the FRS interview.

Establishing whether a respondent is an adult or child is quite straightforward for most respondents but for 16-19 year olds it needs to be established whether they are in non-advanced education (i.e. in sixth-form or Further education college) or employment training and whether they have a legal guardian in order to determine whether they are a dependent adult (which would mean they are classified as a child for FRS purposes) or whether they should be classed as an independent adult. This affects which benefit unit the respondent is assigned and then which questions are asked.

Although it is possible that a 16-19 year old young adult may not live with their legal

guardian, such cases would be rare. Not all young adults live with their parents though — the most common scenario seen in the survey data is where they live with their grandparent(s). Therefore, to ensure that younger respondents are correctly identified as either adults or dependents — and consequently to ensure that the benefit unit structure is correctly recorded — one of the existing soft checks in the household grid has been updated. This check now gives instruction on how to record a legal guardian, including (a) grandparents acting as parents or (b) anyone else in the household who receives or is eligible to receive Child Benefit for the dependent in their care. **NOTE:** this check only appears after question *TypeEd* (which is asked to determine whether the respondent is in full-time education).

Internet Usage

Internet usage questions

A new question *Internt* (and accompanying preamble *Intro*) have been added to FRS to identify how many people might be able to access digital services online. With DWP services now being available online it is important for the FRS to understand people's ability to access services via the internet from home. This will help identify to what extent assisted digital support might be needed for users of those services which have moved to being predominantly administered online.

This question is not simply asking whether the respondent can use the internet it is important that the respondent's **ability to use the internet for accessing services** (e.g. online banking, buying items, renewing TV licence etc.) is recorded – whether or not they

choose to use services in this way. Only record a 'Yes' response if the respondent could buy things online or otherwise engage with services online if they wanted to. If the respondent is only able to conduct a search on a topic of interest or browse websites but **would not be able to access a service** (e.g. by buying something on the internet, registering and updating an online bank account) then this should be recorded as 'No'.

Ensure that if the respondent gives a 'Yes' or 'No' answer that you establish whether they would need anyone to help them to access the services online.

? Preamble to internet usage question

♣ Intro

The next question is about using the internet at home for **services**. This can be for things like shopping, online banking or things you have to apply for (like registering to vote or applying for a passport).

If needed, can you use the internet at home for online services?

INTERVIEWER: Record 'Yes' if respondent uses or is able to use the internet for accessing services (e.g. online banking, buying items online, renewing TV licence etc.). Code 'No' if respondent is only able to use the internet for viewing web pages (such as searching for items of interest but not otherwise accessing services).

INTERVIEWER: Include use of internet on any device (e.g. PC, laptop, tablet or Smartphone etc.).

- 1. Yes
- 2. Yes, but with help
- 3. No, I would need someone to do it for me
- 4. No, I can't access online services at home

Rented Accommodation

Tenancy

Questions YStart and Ctract about when the respondent first became a tenant of their rented accommodation have been removed from the questionnaire as they only apply to a very small number of respondents.

The response options have been reduced at question *TenType* to cover the main tenancy arrangements only. The removed answer options, which only apply to a small number of respondents, have been moved to question *OthType* (which is asked of those stating "Other" at question *TenType*) so should still be recorded in the questionnaire – just at a different question.

? Assured Shorthold Tenancy

₽ Short1

There is a form of tenancy called an Assured Shorthold. It had to be initially for a fixed period and you had to be given a special notice in writing by the landlord that told you it was for an Assured Shorthold Tenancy. Here is an example of a notice to a tenant saying that the tenancy is an Assured Shorthold.

- 1. ... Yes, an Assured Shorthold,
- 2. ...Other agreement

In England and Wales, if the respondent first became a tenant from March 1997 or later, there is a written agreement, the type of tenancy is not known or refused, the following question is asked:

? Assured Tenancy

₽ Short2

Most tenancies are Assured Shortholds. There are others, just called 'Assured'. For these you have to be given a notice, in writing by the landlord, which tells you it is NOT an Assured Shorthold agreement.

SHOW EXAMPLE OF NOTICE.

Does your agreement or notice state that it is NOT an Assured Shorthold? INTERVIEWER: The law changed in March 1997 to the effect that by default all tenancy agreements are assured shortholds, unless the landlord gave written notice to the contrary.

- 1. Not an Assured Shorthold
- 2. No, other agreement

Discretionary Housing Payment (DHP)

Child Disability Payment (CDP) - SCOTLAND ONLY

Child Disability Payment is a new benefit only in Scotland which will steadily replace Child Disability Living Allowance. The first new claims of Child Disability Payment will start in 2021/22 but many existing Disability Living Allowance claims will continue until 2025.

Question *ChDLA* has been updated for the Scotland version of the questionnaire to add Child Disability Payment to the existing categories referencing Disability Living Allowance. Background information on CDP is provided in the helpscreen instructions (Help_F9).

There will now be two separate showcards used at *ChDLA* for England and Wales (Card E2) which references Disability Living Allowance only and showcard (E2a) for Scotland only which references Disability Living Allowance as well as Child Disability Payment.

The addition of Child Disability Payment has also been made at *DisBen* and *DLAType* and additional details about receipt of this payment are asked at new questions *DisBCDP*, *CDPtype*, and *CDPMota*

Question Information included in Helpscreen for DisBen

The Personal Independence Payment (PIP) replaced the DLA from April 2013. Like the DLA it has two components - Daily Living and Mobility. Please note that anyone of State Pension Age in April 2013 would have remained on their existing disability benefit and wasn't moved onto PIP.

Disability Living Allowance has two elements and is directed at the care needs and

mobility needs of disabled people.

The care component has three rates and replaced Attendance Allowance for those under retirement age.

The mobility component has two rates, the higher one being for those unable to walk or who are severely restricted, and replaced the old Mobility Allowance.

Motability is a registered charity through which those who receive the DLA or PIP mobility component may hire or purchase a vehicle at a reduced rate. Either part or the whole of the allowance is paid to Motability. The full amount received including any paid direct to Motability should be recorded. If the amount entered is after deducting money paid direct to Motability, a check will trigger. Please enter the amount of the higher rate as displayed in the check.

Child Disability Payment - Disability benefits are now devolved in Scotland. Child Disability Payment will steadily replace child DLA, with the first new claims accepted in 2021/22; however many existing child DLA claims will continue until 2025. If the 16-18 year old is receiving disability benefits but a different name to those listed is given, please record the benefit under its former name (i.e. as DLA, PIP) and open a note to record the name the respondent has given.

Attendance Allowance is a benefit for people disabled at or after age 66 who live at home and need looking after because of their physical or mental disablement. Attendance Allowance is not related to any income, savings or NI contributions and can be paid in conjunction with other benefits including Pension Credit. There are two rates - a lower one for people who need looking after by day or night, and a higher one for people who need looking after by day and night. Attendance Allowance for those disabled before they were 66 was replaced in April 1992 by Disability Living Allowance (Care component).

Receipt of both Retirement Pension/Widow's Pension/Bereavement Support Payment/Widowed Mother's Allowance/Widowed Parent's Allowance and Attendance Allowance or Disability Living Allowance

Recipients of Retirement Pension, Widow's Pension, Bereavement Support Payment, Widowed Mother's Allowance, Widowed Parent's Allowance may also get Attendance Allowance or DLA (but not both); the Attendance Allowance /DLA may be paid separately from the RP/WP/BSP/WMA/WPA, or as a component of it. In either case, the Attendance Allowance /DLA should be coded at Disability Benefits.

The wording of checks at ChDLA and DisBen have also been amended or added to improve reporting at these questions.

INTERVIEWER: See Helpscreen for instructions on recording private firm or business, a limited company, or some other kind of organisation.

- 1. A private firm or business, a limited company,
- 2. Or some other kind of organisation?

Question Information included in Helpscreen for Sector

The public sector is defined as owned, funded or run by central or local government. The private sector is everything else.

Some examples of where Sector should be coded as 1 are as follows:

- **Public Limited Companies (PLC)**. These are companies that are quoted on the stock market and have shareholders. 'Public' here refers to the availability of shares to member of the public through the stock exchange.
- Limited Companies (Ltd). These are incorporated businesses owned by one or more individuals. These may also formally be referred to as private limited companies.
- Self-employed individuals; sole traders, or owners of small shops or <u>small</u> businesses.
 - Partnerships (e.g. lawyers working as partners in a practice)
- Private contractors. This applies even if they work exclusively for the public sector (e.g. a cleaning firm, catering firm or freelance consultant working for a government department or local authority).
 - The Post Office code 1 at Sector
- **Deregulated bus service**: Use code 1 at Sector for <u>municipal bus companies (Arriva etc.)</u>, <u>but code 2 at Sector for Transport for London</u>
- **Doctors, and dentists** and the professions allied to medicine (and others working in their practices therapists etc.) should be coded according to whether the majority of their practice is mainly hours are given to-NHS or private patients. Probe if necessary.
- <u>-</u> GPs are technically <u>usually</u> self-employed even when they work exclusively for the NHS but, for the purpose of this question, they are to be coded as 2 at Sector if the bulk of their caseload is NHS
- those whose consultation or treatment hours are mainly private work, should be coded as 1 at Sector
- -- Law enforcement and security, including fire service, police and the Armed Forces (including the Royal Marines) code 2 at Sector

Schools and Universities

- **Schools**, including faith schools, free schools, academies, city technology colleges, state boarding schools and private schools should be coded as 2 at Sector. Most "private" schools, including so called 'independent schools', are charities.
- Almost all **universities** in the UK are in the public sector (code 2 at Sector), only a handful such as Buckingham and the University of Law are in the private sector (code 1 at Sector)
 - Further Education colleges should be code 2 at Sector
- <u>Central and Local Government- and arms-length bodies:</u> Use code 2 at Sector. This includes central government and the <u>Civil Service, plus all local authority employees</u>. Other examples are the Job<u>Ccentre Plus, Research Councils, the British Council, National Museums and Art Galleries, and prisons.</u>
- **Public bodies with a greater degree of autonomy**: Use code 2 at Sector.- Examples are: the Bank of England, the-Royal Mint, the Met Office, the BBC, Civil Aviation Authority. This includes trading funds, nationalised industries and state corporations.
 - Magistrates Courts and the Probation Service: Use code 2 at Sector
- **Charities**: Use code 2 at Sector, e.g. OXFAM, NSPCC, RNLI, RSPCA, The National Trust, Cancer Research UK

- Trade Union employees should use code 2, many trade unions have benevolent / charitable services
 - -Churches of any denomination or and Friendly Societies: code 2 at Sector

Non-private sector organisations

To ensure that the questionnaire correctly represents the type of non-private organisations that people work for changes have been made to increase the answer categories at question SectorNP (formerly known as SectrNP and which follows Sector if the respondent works in 'some other organisation'). The helpscreen instruction information has also been amended to provide clarification on how different types of organisations should be coded at SectorNP. Please take care if you are familiar with using this question and assigning certainoccupations to particular codes that they may no longer use the same code.

Soft checks that are no longer needed at this question due to the removal of old codes (e.g. code 1 'public limited company/plc' and code 2 'nationalised industry/state corporation') have been removed.

RUNNING PROMPT ...

INTERVIEWER: ASK OR RECORD CODE NATURE OF JOB:

INTERVIEWER: Director / Managing Director / Chief Executive can be recorded for any size of company including single-person limited companies where they are both owner and sole "employee".

INTERVIEWER: Record 'Doctor' for those working in any setting (e.g. GP practice, NHS Trust, Hospital, surgical or other healthcare setting).

- 1. Childminder
- 1. Director / Managing Director / Chief Executive of a limited company, or PLC,
- 2. Doctor or Dentist, in a practice
- 3. Dentist?
- 3. 4. All other jobs

Question Information included in Helpscreen for Nature

<u>Director of a company</u> - If the respondent is a director of any PLC or LIMITED company, no matter how small, code 1. This includes single-person Ltd companies that they own outright themselves, where they are the only "employee".

If the company is NOT LIMITED or a PLC, then code '4' All other jobs.

Anyone stating that they are both a director AND a doctor or dentist, should be coded as a doctor or dentist.

Doctors -

If a Hospital doctor is doing both NHS and private work, they should be recorded as having two jobs at **NumJob** to reflect this. Ask respondent to clarify and recode **NumJob** accordingly. This division will apply mainly to hospital doctors (in contrast, it is expected that GPs will report just one job).

The term "doctor" refers to medicine, and not the academic degree of PhD. Those with a 'non-medical' PhD should be coded as "all other jobs". Only code as "Doctor" if practising medicine.

<u>Dentists</u> - The term "dentist" means those with the relevant degree (BDS / BChD or higher quals) who are practising dentistry. It does not include dental nurses / dental assistants who should be coded as "All other jobs".

Veterinary surgeons - Veterinary surgeons should be coded as "All other jobs".

Doctors and dentists

DWP need to get more accurate details on the full earnings of doctors, as it is possible for them to have income from both private practice and NHS work. Currently, income from these sources may not be recorded under the one job as a doctor if not prompted to report both sources of income. Several new questions (*Doctor, Dentist, DocPriGP, DocPriHR, DocPriHP,*) have been added after the question *Nature* to collect better information about doctors' work.

As, ideally, we would like doctors who work for the NHS and in private practice to report their income separately a new question (*DocPriChk*) checks with those working in the NHS and in private practice whether they are able to provide separate details (such as work hours and earnings) for their private work and NHS work. If the respondent indicates that this will be possible then a hard check will send you back to the question *NumJob*. Those doctors who are able to provide separate details for private and NHS work should be recorded as having two jobs so that they can be asked about each job separately (i.e. private practice and NHS practice). If so, their NHS work would be recorded as their 'main' job, and their private work would be recorded as their 'second' job. Likewise, if the respondent is a doctor with multiple jobs recorded at *NumJob* but cannot provide separate details for private/NHS work, the soft check will provide a prompt to confirm that any second jobs are completely different jobs and are not related to their private/NHS work (i.e. their work as a doctor is only recorded as one job).

Questions have been added for GPs specifically, about whether they see patients on a private basis, and if so, approximately how many hours they spend on private consultations per week.

Additional soft checks have also been included between *EType – Employment Situation* and the new questions to flag any unusual combination of responses. Soft checks have been added at the new questions *Doctor* and *Dentists* to flag responses that are not typical in respect of whether the respondents are partners in practice (or not) and whether they are employees or self-employed. For GP partners in practice and dentist partners in practice, the checks will trigger if they state that they are an employee at this question. For non-partner GPs and for doctors working in other (non-hospital) settings, the checks will trigger if they state that they are not an employee.

Directors of limited (or PLC) companies

Directors of limited (or PLC) companies have complex incomes, that can involve taking dividends, paying themselves salaries, and/or drawing from the company's profits. To get an accurate picture of company directors' entire income streams, new questions have been added to ensure FRS collects full and correct information about the income of directors of limited companies.

The pre-existing question *Dirctr* has been removed as the same information is now collected via the new answer category (code 1 'Director / Managing Director / Chief Executive of a limited company, or PLC') at question *Nature* (Nature of Job). The new company director questions are routed via the answer at question *Nature*.

These new questions (*DirPerc, DirSalry*, and *Dividend*) ask about: the percentage of the company is owned; how the director is paid (through PAYE, as a dividend, or another way), and, if applicable, the overall amount received from the company in dividends (after tax) in the last 12 months.

Self-employed Earnings

Inclusion of a self-employment revenue period validation check

Self-employed respondents are asked about the most recent period for which they have prepared their accounts for HM Revenue and Customs. To remove errors where the start date and end date of this period are incorrectly recorded as the same date, a new soft check after questions *SE1* and *SE2* has been added to resolve any such conflicts. Please make sure that you leave a note if you suppress this check so that we can account for the seemingly incorrect information and take appropriate action when editing FRS data.

For those who keep business accounts the following questions are asked:

? Recent Period for Accounts

₽ SE1

What is the most recent period for which accounts have been prepared for the HM Revenue and Customs (formerly Inland Revenue)?

This is unusual. Please check (especially the year recorded) and amend the date at either SE1 or SE2 accordingly, or explain in a note.

State & Other Benefits

Universal Credit and Housing Benefit

Under the current benefits system it is not possible to receive both Universal Credit (UC) and Housing Benefit (HB), although it is possible to receive UC which includes a housing element as part of the same benefit package. An existing check in the questionnaire already triggers for this combination of responses (i.e. respondent in receipt of both UC and HB), along with several alternative combinations involving UC and other benefits.

To improve data accuracy, and to ensure that this particular combination of responses is properly scrutinised and resolved, the existing check has been modified and a new check has been introduced.

If both Universal Credit and Housing Benefit are being declared and the respondent does not receive HB separately then the record of HB should be removed, and only UC should be recorded (the **housing element** of UC should be recorded as UC, not as HB).

Receipt of Employment Support Allowance due to COVID-19

Due to the increase in people claiming Employment & Support Allowance (ESA) as a result of the coronavirus pandemic, question *CovESA* was introduced last year to ask whether receipt of ESA was due to COVID-19 infection, self-isolation or shielding to capture information on how the pandemic was affecting people's incomes.

CovESA remains a vital question whilst the pandemic is ongoing. However, a new question CovESA1 has now been added to filter people away from CovESA where the reason for them receiving ESA is not related to the pandemic, as would be the case for much of the sample.

A new question *CovESAO* has also been added to capture information on people receiving ESA due to COVID-19 but for a reason other than infection, self-isolation or shielding.

Sure Start Maternity Grant

The Sure Start Maternity Grant provides qualifying families with a one-off payment of £500 on the birth of a first child, or for each child in the case of a multiple birth. It is not paid if you already have a child under 16 in the family, unless you have twins and have not had twins before, or have triplets and have not had triplets before.

From October 2018, the Sure Start Maternity Grant is being replaced in Scotland by the Best Start Grant.

Best Start Grant: Scotland only from October 2018

From October 2018, the Sure Start Maternity Grant is being replaced in Scotland by the Best Start Grant.

Under the Best Start Grant, qualifying families in Scotland will receive £600 on the birth of a first child and £300 for any subsequent children, £250 when each child begins nursery, and a further £250 when they start school.

School clothing grant/ Pupil Development Grant/ Uniform Grant

Parents of school children on low income may be eligible for a school clothing grant of at least £100 per year per child in a voucher or in cash (in Scotland, amount, eligibility and how it's paid differs by council). Wales and Northern Ireland also have similar grants. In Northern Ireland the Uniform Grant is a minimum of £22 and no more than £78 per child per year, in Wales, the Pupil Development Grant is a fixed amount of £125 per child.

Scottish Welfare Fund Crisis Grant

Those on a low income can apply for a Crisis Grant to cover the cost of an emergency. This does not require the applicant to be on benefits. This emergency could include a range of circumstances, including, but not limited to, a fire or flood at home, escaping domestic abuse, taking over the care of a child and gaps in employment.

Scottish Community Care Grant

Those on a low income can apply for a Community Care Grant to help them with starting to live, or to carry on living, a settled life in the community. This does not require the applicant

Other benefits

Question *OtherBen* has been removed from the questionnaire and been replaced with a new question *OthBen*. The aim is still to ensure that all benefits are recorded and *OthBen* checks this but the wording has been changed and respondents are only required to confirm 'yes' or 'no' as to whether they have received additional benefits, rather than confirming the *type* of benefit(s) they have received.

Those respondents declaring that they had (in the last 6 months) received National Insurance or State benefits are then routed to existing question *OthName*. This allows the name/type of benefit to be recorded with free text and still capture benefits that are less frequently available but which had not been mentioned earlier in the questionnaire.

Part of this reworking also includes additional on-screen information about receipt of the £10 Christmas Bonus (which are not to be recorded in the FRS as this is applied to the data later)), Extended Payment of Housing Benefit, Cold Weather payments, and the Reduced Earnings Allowance.

Additionally, two subsequent questions *ExBenAmt* and *ExBenPd* – previously used to capture further information about Extended Housing Benefit payments – have been removed from the questionnaire.

As a result of these changes, several questions that follow *OthBen* have had their routing criteria adjusted to account for the simplified yes/no response options.

Lump sum pension withdrawal

DWP want to get a better understanding of how people are accessing their pension and whether they are using their pension freedoms which allow them to withdraw tax-free lump sums from their pension.

Three new questions (*LSType*, *LSTaxed*, *PenRcAge*) have been added and are asked of those respondents who report taking a lump sum or withdrawal from their pension at the question *PenWealth*. The helpscreen at *LSType* also provides background information on the different types of pension freedoms options that people can take.

To ensure that there are no gaps in the details provided on people's pensions it is important that key questions are answered. To ensure full pension information is collected, soft checks at questions *AnyPenNum* and *PenWealth* have been amended to give instruction that "don't know" responses need to be re-coded wherever possible. A 'don't know' response will result in important questions not being asked so it is important that you follow the instructions in the soft checks which will then bring the relevant pension questions back on route.

Question Information included in Helpscreen for LSType

1. Taking cash in chunks from the pension pot

You can take 'lump sums' by taking smaller sums of cash from your pension pot as you need it, which is known as 'Uncrystallised Fund Pension Lump Sum' (UFPLS)). When you do, you take your 25% tax-free allowance as part of each separate withdrawal you make. To take sums of cash in chunks from your pension you do not have to purchase a retirement product e.g. a drawdown or annuity.

2. Taking all of the pension pot in one go

You can take a 'lump sum' by taking your whole Defined Contribution (DC) pension pot as cash, 25% is tax free, the other 75% is taxed.

3. Taking a lump sum from the pension through a flex-access (income) drawdown product

You can take a 'lump sum' if you decide you want to get an income from your pension pot that's adjustable. This means you get a regular income but can change it or take cash sums if you need to. This is known as Flexi-access drawdown. When you choose this option, you

get 25% of your pot as a single, tax-free cash 'lump sum'. The other 75% is invested to give you a regular, taxable income.

4. Received a lump sum from a salary-related pension scheme

If you have a Defined Benefit (DB) or salary-related pension, then your scheme may offer you a cash 'lump sum' when you reach retirement. This is different to a lump sum from a Defined Contribution (DC) pension/money-purchase pension scheme as you will **receive** it from the scheme, not take it from your pension pot.

Age first received or accessed pension

A new question *PenRcAge* has been added to ask at which age the pension was first accessed or received. As pension freedoms now allow people to access their defined contribution (DC) pension pots from age 55, this information will be crucial to understanding when people are taking their pension and whether they are potentially making decisions about their pension which will have a negative impact on their future finances. This question will give an insight into whether there are certain ages or types of people who are more likely to take a lump sum and whether there are certain circumstances which mean the decision to take a lump sum is made.

A soft check has also been added, as it is expected that the pension would not be received or accessed before age 55.

Household food security

Food banks

Due to the significant increase in food bank usage over the past decade, FRS will collect information to increase DWP's understanding of household food security and the circumstances of people using food banks. New questions have been added at the end of the household food security block to establish whether the respondent has used a food bank in the last 12 months and in the last 30 days.

Respondents will be asked how many food parcels they received from a food bank. Food banks usually operate on a voucher basis where a referral (voucher) to a food bank from a third party (GP, Health professional etc) is issued and then a food parcel can be collected. A food parcel will usually contain enough supplies to last a few days, but more than one food parcel might be collected at each visit. It is important that the actual **number of food parcels received** is recorded, rather than the number of referrals/vouchers received. For example: if the respondent reports that they had received two referrals/vouchers in the last 30 days and received four food parcels as a result of their two visits, please record the number of parcels (i.e. '4').

Food banks may also provide other support, such as financial advice or mental health support, but the focus of the new questions is on use of food banks to receive food supplies (i.e. the number of food parcels received). If the respondent received advice or support for other issues but did not receive a food parcel on their visit to the food bank then this visit should not be recorded. If the respondent received a parcel and advice or support on the same visit then the parcel received at that visit should be recorded.

Debt

Credit/store/charge card question

Questions on personal debt were introduced at the beginning of the 2020/21 FRS survey year, however they were removed shortly afterwards (from June 2020 onwards) as a way to make the questionnaire shorter following the switch to telephone interviewing due to the COVID-19 restrictions. The questions have been reinstated in order that the FRS can be used to accurately describe the available resources of the UK population but will be asked only when face-to-face interviewing resumes. The debt questions will come on route only if *FTFTEL* is coded as 'Face-to-face' (i.e. code 1).

In addition to questions being reinstated, credit/store/charge card questions: *DCARDRep, DCARDRpO, DCARDAmt, DCARDMth,* and *DCARDPd* have been added. The question names for the "hire purchase", "loans", and "credit cards, charge cards and store cards" questions have also been renamed, e.g. *DHPany* becomes *DHIREAny*.

The questions focus on debt from the following sources:

- Mail order account (from a mail order catalogue)
- Hire purchase and credit agreements
- Loans
- Credit cards, charge cards and store cards

Assets

Further changes have been made to the assets questions this year so that FRS can provide more detailed and accurate information about those with median and low incomes. The routing to assets questions was extended last year to allow a better understanding of low and median incomes both for those of working age and those of pension age.

The assets questions have previously been asked if the respondent has savings between £1,500 and £20,000. The assets questions will now be asked depending on whether the interview is conducted face-to-face or by telephone interview. When interviewing face-to-face the routing of the questions will also depend on whether adults in the benefit unit are of working age or pension age.

The assets questions will be asked as follows:

If the interview is being conducted face-to-face (and *FTFTEL* is coded as 'Face-to-face' i.e. code 1).

- Where any member of the benefit unit is of working age with savings between £100 and £30,000
- Where *both* members of the benefit unit are of pension age with savings between £100 and £200,000.

Older people tend to have accumulated a higher level of assets than younger people which is why the savings range to route to the assets block is different for them.

While the questions are being asked by telephone (and *FTFTEL* is coded as 'By telephone' i.e. code 2) the assets questions will be asked as follows:

- Where savings are between £1,500 and £30,000

Final questions

Follow-up request for permission to recontact for future studies

Question *FollowUp*, which asks the respondent for permission to recontact them in relation to other studies, has been reworded. The new wording ensures that respondents are informed about who might undertake the follow-up research (clarifying that this might not always be DWP) and advising that the respondent would only be contacted if necessary. A new helpscreen also provides further information to assist with answering any respondent queries. Recent examples of follow-up studies conducted using FRS respondents are also included in the helpscreen.

Sometime in the future there may be a follow-up or a new study related to this one. Such a study would be agreed with the Department for Work and Pensions, but may be carried out on behalf of another organisation. To identify individuals for inclusion in this study responses to the full Family Resources Survey may be used.

You may not be contacted again, but, if you are, you will still be free to decide whether you wish to participate in any follow-up study.

Would you be willing to be contacted again, so that a social research organisation approved by DWP can carry out the study?

Sometimes we ask people who've taken part in this study to take part in other studies too. These studies may be carried out by the Department for Work and Pensions but also by other government bodies, think tanks or research organisations. You will only be contacted again for research purposes and only with DWP'sagreement that there is a genuine reason for contacting you.

You may never be contacted again, but even if you are, you'll still be free to decide whether you want to take part in the study or not.

Are you willing to be contacted again for future research purposes?

- 1. Yes
- 2. No

Question Information included in Helpscreen for FollowUp

Many respondents agree to be re-contacted for another study (around two-thirds to over three-quarters of those interviewed).

Why respondents are asked to take part in future research

Most of the respondents who agree to be re-contacted will never be contacted again but the ones who are will be vital to the studies who need their participation. The studies usually focus on specific populations, recent examples have been:

- a study on parents and their experience of childcare and early years conducted for the Department of Education
- a study on planning and preparing for later life for DWP about plans people aged 45-75 make for retirement.

Permissions and data use protocols

DWP has strict controls in place before researchers can approach FRS respondents. The processes for granting permissions are compliant with GDPR and the safe handling of personal data.

Researchers would only be passed information they absolutely need in order to contact the people they would like to take part. Firstly, the researchers will want to know age group and which part of the country the respondent lives in. Financial information is not usually required or passed on.

Admin block

Feedback on how well the questionnaire is working from the questions in the ADMIN block are invaluable to the research team when taking decisions about questionnaire content for the next survey year. The feedback questions have been reviewed for the 2021/22 survey year so that information is collected about the most significant changes made to the survey this year. Questions to guide you in the type of feedback we'd like on particular survey questions have been added but please do not feel restricted to just answering these if you have other thoughts on the questions and how the survey is working in the field.

If you have comments about any part of the questionnaire that do not have a separate question please include them at the feedback question GenCom. Please make a note of the question name with your comment as it makes it much easier to identify the source of the issue that has been raised.

NOTE: Your feedback is really important to us in reviewing whether the questions are working as intended. Please leave comments on the questions as these will be used to improve the questionnaire for FRS 2022/23.
